

Type L-G-S 135R

2 in 1

The cutting tool "L-G-S 135 R" is equipped with a working base, a catch plate to prevent cut of parts from falling, as well as an attached transformer. Tapered cuts can be made when the cutting arm is detached from the base. Even steps can be performed without effort using the "L-G-S 135 R".

You get two tools in one. The cutting bow is removable and can therefore be used to perform tapered cuts.

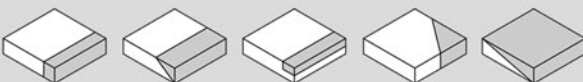

SPECIFICATIONS

- ◆ Tape measure on base
- ◆ Angle scale on base
- ◆ Removable catch plate
- ◆ Height adjustable cutting arm
- ◆ Security Transformer VDE 0570 with thermal fuse (attached to tool): 40 V – 250 Watt – 6.2 A
- ◆ Angle scales
- ◆ Wheel for easy transport
- ◆ Possibility to attach tool to scaffolding
- ◆ Use flat or standing up
- ◆ Removable cutting arm
- ◆ Strong corner connections with braces
- ◆ Ball bearing tracks
- ◆ Anodized aluminum
- ◆ CNC-manufactured water-proof base plate
- ◆ Incl. 3 Replacement cutting wires
- ◆ Optional: Integrated stand

TECHNICAL DATA

- ◆ Cutting Height: 400 mm
- ◆ Cutting Width: 1350 mm
- ◆ Cutting speed depending on density of material: 100 mm (4 inches) in 8-15 seconds

POSSIBLE CUTS

PRICES for Dealers (excluding tax)

- ◆ 999.00 Euro
- ◆ 1099.00 Euro (incl. tool stand)

PRICES for End User (incl. tax)

- ◆ 1188.81 Euro
- ◆ 1307.81 Euro (incl. tool stand)

1 Angle cuts can be prepared quick and simple.

2 Wheels simplify the transport.

3 An angle can be adjusted on the base in seconds.

Optional:
The integrated stand allows operators to use the tool anywhere standing up.
