

Type L-G

2 in 1

Styrofoam or similar insulation materials with a thickness of up to 380 mm can be cut exact and without shavings with the hot wire cutter "L-G".

Angular, straight, as well as steps can be created fast and easy.

You get two tools in one. The cutting bow can be removed and used for free handed cuts.

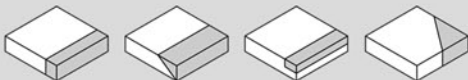

SPECIFICATIONS

- ◆ Tape measure on the base
- ◆ Robust cutting bow with wire suspension on both sides as well as a corner connections with braces
- ◆ Angle scales
- ◆ Security Transformer VDE 0570 with thermal fuse:
24 V – 60 Watt – 3 A or
40 V – 250 Watt – 6.2 A
- ◆ Cutting arm removable and foldable (saves space)
- ◆ Ball bearing tracks
- ◆ Anodized aluminum
- ◆ CNC-manufactured water-proof base plate
- ◆ Connection for foot switch
- ◆ incl. 3 Replacement cutting wires

TECHNICAL DATA

- ◆ Cutting Height: 380 mm
- ◆ Cutting Width: 1010 mm
- ◆ Cutting speed depending on density of material (40 V transformer):
100 mm (4 inches) in 8-15 seconds

POSSIBLE CUTS

PRICES for Dealers (excluding tax)

- ◆ 659.00 Euro (incl. 24 V transformer)
- ◆ 699.00 Euro (incl. 40 V transformer)

PRICES for End User (incl. tax)

- ◆ 784.21 Euro (incl. 24 V transformer)
- ◆ 831.81 Euro (incl. 40 V transformer)

1
The wire suspension with adjustable tension springs allows for easy wire exchange.

2
Angle cuts can be completed quickly via the angle scales.

3
An angle can be adjusted quickly on the base plate.

4
The continuously adjustable spacer enables split cuts, step cuts, etc.
